

Specialists in
COLOR RESTORATION & REPAIR

3 year Warranty Program

PEACE OF MIND AGAINST ACCIDENTAL
DAMAGES, TEARS, HOLES, SCUFFS ETC

30
YEARS

Color Glo International(CGI) is a world market leader in the restoration of leather and other materials. The reality is that accidental damages can occur at any time and the resources of repairing leather in South Africa is limited. With the international success of this unique warranty program, you have peace of mind that will cover your newly purchased leather item against:

- Tears
- Scuff Marks
- Stains
- Holes

.....for a duration of **three years** from date of warranty purchase.

How it works:

Once you have purchased the warranty, the item will be inspected and a condition service will be rendered by an approved CGI agent. You will receive an official certificate which will contain the terms and conditions. The warranty is supported nationally, so even if you relocate, you will still be covered. Should you experience any accidents to your item, you will need to call our national support number and your claim will be processed and assessed. The repair will be carried out within seven days from date of claim, either at our location or at any approved CGI Centre. Wear and tear damages are not covered.

Permanent Lasting Repairs

With 30 years of world wide experience, we know how to repair leather using our specially formulated proprietary products manufactured in the USA.
