VERTIGO

An executive range with a clean, contemporary feel and robust design. VERTIGO is designed to suggest unique solutions that bring to life the pleasure of working in an office environment characterised by ideal form and function.

VERTIGO is a collection of desks and tables using an aluminium understructure and wood veneer, laminate or glass surfaces.

Vertigo Workstation Maple Veneer

Entity Workstation Cherry Veneer

Entity Bookcase Cabinet Walnut Veneer

ENTITY

Modernity is the word that springs to mind, embodied in the technical lines and feel of the ENTITY range, tailored for a livable, pared down but comfortable elegance.

ENTITY has been designed to brighten the environment of even in the smallest of modern offices. Weightless in design, but strong in its' apparent lightness, ENTITY is an executive range of designs, elegant and always instantly recognisable.

The contrast between the warm woods and the white structures, in lacquered wood or painted aluminium, creates sophisticated executive interiors of great elegance and perfect harmony.

Entity Workstation Walnut Veneer

Volo Workstation Cherry Veneer

VOLO

A choice of class leading designs, expressing authority, strength and elegance. For those who love simplicity and clean lines, and know how an elegant but businesslike environment defines character.

VOLO is a modern executive furniture range. Each element is the synthesis of a search for optimum balance between form and functionality.

Desks are the distinguishing elements of this series, where these pieces epitomise the originality of VOLO. The curved lines of the executive tables elegantly offset the strict geometries of the range.

BEAMZ

A technically advanced table line featuring a high degree of functionality and variability that can easily adapt to individual customer needs. To meet structural requirements, the highly flexible frame offers a wide range of applications – with a variety of frame designs and combinations. It features trendy and exclusive design and benefits from being extremely stable and easy to assemble.

BEAMZ workstations offer a wide range of combinations and configurations allowing it to accommodate any organisational change through the application of the latest in design technology.

Beamz Single Desk White Laminate

Designed to work well.

Beamz Face to Face Workstation Credenza with Perspex Screen Option

BEAMZ (contd.)

Flexible office furniture for IT integration.

Fostering interaction and communication. Easily adaptable to today's office requirements. Multifunctional units for different office zones and applications such as teamwork or project-focused work, for desk sharing or classic workstations, BEAMZ has a solution.

Power and network cabling are stored in a generous cable tray in the centre of the table. Extra elements in the third working level include, rails, organiser units, screens, plug boxes, filing trays and shelves, flat screen swivel support, tasklight adapters and other features. Individual desks come in different sizes.

Modular composition allows reversible configurations. Combined with auxiliary furniture such as mobile pedestals, pedenzas or caddies, this solution provides a compact office layout that excels through efficient use of floor space.

Beamz Workstation 4 Way Summer Oak Laminate

Metal Cable Tray For all excess cables under workstation

Snaik Neat and effective cable management keeping power, communication and information cables apart

Slinky Allows power cables to be routed up to the under desk

DESK ACCESSORIES

The 2010 Offix range establishes new standards for cable management. Through an innovative concept that adapts to functional needs of the customer and to individual space constraints. Variable tabletop functions are combined with smart cable management, making the new range a perfectly integrated table system with a variety of preinstalled features.

Easy installation of the cable management system:

Tabletops can be easily mounted and removed without additional tools thanks to clip-on mechanism. Cables are routed vertically in attractive cable chains that can be hooked anywhere along the entire length of the cable tray.

Beamz Wire Power Tray Provides an easy and quick connection to the electrical power supply and IT network
